**Statement of the Town's Indebtedness
1913 - 1921**

THE NET DEBT JAN. 31, 1921, WAS	\$13,478.65
THE NET DEBT FEB. 16, 1913, WAS	11,956.11
INCREASE IN EIGHT YEARS	<u>\$1,522.54</u>

There has been a decrease in the debt every year but two, 1914 and 1920, and both of these years the town voted to make improvements and hire money.

Some of the improvements made in 1914 were as follows:

East Grove street sewer	\$1,192.24
Cloutman drain	351.46
Crushing outfit	1,652.13
Oil Engine	618.40
Spraying outfit	1,361.28
Shed and land	1,208.54
Police station	625.92
Permanent bridges, 1920	5,082.67
Improvements for which there was no appropriation . . .	<u>\$12,092.64</u>
Taken from the 1921 net debt would make the net debt Jan. 31, 1921	\$1,386.01
Or a decrease in eight years, exclusive of improvements	\$10,570.10

In a reading of the town report the average citizen is apt to read an altogether unwarranted alarm in the big figures and censure the administration unduly without looking into the contributory circumstances. The above items are presented for the purpose of affording everybody a clear understanding of the town's indebtedness.

Selectmen's Report

It is of customary importance in submitting this our annual report, to make certain explanations relative to conditions that have contributed to or interrupted the financial administration of affairs. The year past has been one of almost tragic history, inasmuch as untoward expense is concerned, and has reversed what might have been a prosperous program into one that has required a measure of constant self-defense rather than the aggressive forward movement that was contemplated. Itemized, these conditions make a formidable array of counter influence that cannot do otherwise than elicit a sympathetic understanding of what your board has had to contend with in meeting the emergencies, with the appropriations at its disposal. What has been experienced in the way of detriment during the year past will of necessity shape, somewhat, the character of the coming year's administration, and we believe the situation calls for prudent and judicial calculation in measuring the scope and costs of what remains to be accomplished by your incoming board.

In presenting the following explanatory paragraphs, it is our purpose to lay before the voters such facts as will assist them in reconstructing the future for the welfare of the town.

First: The last March meeting appropriated thirty-five cents on a hundred of valuation for breaking snowpaths. Ordinarily this would have been a liberal sum, but figures will show that the snowstorms of early 1920 cost the town over \$5,400.

Second: It was the intention of the board, pursuant to recommendations of the town meeting, to replace the wooden Hayes bridge with a permanent structure. Before the work could be undertaken the bridge went down at a time when it was impossible to buy a bag of cement at any price. Consequently, it was necessary to rebuild the bridge with wood, and with lumber at the present market, the expense was \$900.

Third: The state engineers closed our main road to Rochester for a considerable period during construction of the trunk line. This compelled traffic to detour over Watson bridge. This met a similar fate as the Hayes bridge, and repairs plus damage cost the town \$900 more.

Fourth: Metal culverts, to replace the wooden bridges about town, were purchased on June 5th to be delivered in thirty days. They arrived in October, too late to be installed properly in some instances.

The soldiers' bronze memorial tablet was ordered to be delivered December 20th, and as yet has not arrived.

Fifth: The washout of a few weeks ago cost the town \$2,300 to meet, in most cases, only temporary repairs.

Sixth: It was necessary to remove the stone crusher to the scene of new state road construction on

the Valley road. It was deemed expedient to repair Garfield street, as the town accepted it two years ago. Also Grove street, the most important cross street in town, has been made permanent. A bog-hole from Berry's court to the Amazeen place on North Main street has been repaired with crushed gravel. All this improvement could have been effected within the appropriations under ordinary conditions. It will be seen that after paying about \$2,300 for a washout, the appropriation has been exceeded only by a little over \$1,000, exclusive of permanent bridges, for which construction the town was authorized to hire money.

Seventh: Realizing the depressed condition of business, the board felt its duty toward local residents. And it is conservative to say that never before were so many employed or so much money paid out for local labor as during 1920.

It is recommended that the brook running through Nebraska be put in proper condition to avoid further trouble.

It should be remembered further that it is the duty of every citizen to be present at the town meeting and assist in keeping down appropriations, as it is at these meetings that the annual tax rate is established.

Respectfully submitted,

FRANK A. ADAMS,

ULYSSES S. KNOX,

HARRISON G. WALDRON,

Selectmen of Farmington.
